## Python Backend developer

### TECHNICAL SKILLS

- Programming Languages: Python
- Operating Systems: Linux, Windows
- Databases: PostgreSQL, MySQL, Redis
- Frameworks: Django, DRF, FastAPI
- CI/CD: Docker, Docker Compose
- Testing Tools: Postman
- Tools: PyCharm, VS Code
- Others: Celery, Dramatiq, Git, RabbitMQ

### PROFESSIONAL EXPERIENCE

11.2022 - 06.2023 (8 months) **Telegram Bots Developer**

**IP Elmev Danil Georgievich, Krasnodar**

Developed and maintained telegram bots API Wildberries for data collection and analysis of product statistics and sales of sellers (aiogram, aiohttp, sqlalchemy, asyncio, Django, Docker, PostgreSQL, Redis).

06.2022 - 11.2022 (6 months) **Python backend Developer**

**SibDev, Krasnoyarsk**

Developed the backend of a web application for income and expense tracking and financial goals monitoring (Django, DRF, PostgreSQL, Redis, Celery, Docker, Docker Compose).

[Project repository](#)

Implemented features for deposit and withdrawal, sorting transactions by categories, creating goals with daily interest calculation, expense and income analytics with goal-based interest accrual, and transaction import/export

### EDUCATION

10.2021 – 05.2022 **Educational Projects at Netology** — *Python Developer course (course program link: <https://netology.ru/programs/python>)*

1. Developed an online store (Django, PostgreSQL, Redis, Celery Docker, Docker Compose).
2. Diploma projects: "Backup" and "VKinder" (requests, vk api, yandex disk api, postgres).

**2019 – 2023 Siberian Federal University, Institute of Space and Information Technologies, Krasnoyarsk**— Software Engineering(incomplete higher education).

### ADDITIONAL INFORMATION:

- Foreign language: English (A2).
- Willing to travel and relocate

## ABOUT ME

I am a Python developer with experience in developing web applications and telegram bots.

I have completed the "Python Developer" course from Netology and successfully implemented several projects.

I have basic knowledge and experience in Java, C++, JS, HTML, CSS. I possess an understanding of the fundamental protocols of the TCP/IP stack and basic Linux administration skills.

I am eager to take on new projects and see them through to completion. I work well in a team, can resolve conflicts, and compromise effectively.
